

PRIMARY/ KINDERGARTEN (3-6 YEARS OLD)

Our Primary program offers a thoughtfully prepared environment that is clean, well-organized, and designed to be both beautiful and functional, filled with age-appropriate, hands-on learning materials. Children are free to choose their lessons from a variety of materials that encourage exploration, independence, and self-correction, promoting a strong sense of confidence and autonomy. The classroom is equipped with child-sized furniture to ensure comfort and accessibility.

Our trained Guides are dedicated to supporting each child's unique learning journey and carefully observing to recognize moments of readiness, gently demonstrating the correct use of materials and offering guidance when needed. Through their nurturing approach, they create a space where children feel supported, encouraged, and empowered to learn through their own intrinsic motivation and self-discipline.

Building independence through:

- Practical Life Skills
